Quality in the news:

Coronavirus Ripple Effects Hit Production at Airbus, Hyundai - companies are bracing for supply-line shocks.

Organizational Topologies and Their Impact on Quality - factors to predict software quality based on hierarchy and communication paths between collaborators within an organization.

Implementing risk-based quality management: The importance of scalability - Implementing data-driven, risk-based monitoring into clinical trials — an approach called risk-based quality management (RBQM) — involves more than updating some paperwork.

Company moving headquarters to Buffalo, adding 80 new jobs - BUFFALO, NY (WKBW) — A company called ReTech Systems LLC is going to move its headquarters from California to Buffalo's Northland Corridor. It will also set up a research, development and manufacturing facility at 683 Northland Avenue. The company makes high-tech titanium melting furnaces, which are sold globally. This move is expected to create as many as 80 new jobs.

Science interest:

Golden Mummies of Egypt to make US debut at Buffalo Museum of Science Saturday - The exhibit features eight mummies, as well as masks, coffins, jewelry and sculpture. The collection has traveled here from the Manchester Museum in the UK for its first public display outside its home museum.

ASQ Scholarship is Linked with Student Chapters:

We have now formalized Scholarship Awards with the Student Chapters of ASQ Buffalo.
